

ABB / Wimmer Systems DaCS™ User and Administrator Training

What DaCS™ Training can ABB Offer?

ABB can offer three types of DaCS™ training depending on the level of use of the DaCS™ software. These are:

- DaCS™ User Training Course
- DaCS™ Administrators Course

All DaCS™ training services are detailed below.

DaCS™ User Training Course

The DaCS™ training course is non-assessed and provides attendance-training certificates.

This course is HIGHLY recommended at the beginning of any site DaCS™ project and can be combined with the Administrator training course on consecutive days. It ensures that all potential users are fully aware of the use of DaCS™ and the functionality and benefits the software offers in your chosen environment.

The course overview is as follows.

- A 2-hour course taught by one ABB Process Solutions consultant specialized in DaCS™ use.
- An overview and introduction to DaCS and the way in which DaCS™ will be used in your environment.

DaCS™ Administrator Training Course

The DaCS™ Administrator training course is non-assessed and provides attendance-training certificates.

This course is HIGHLY recommended at the beginning of any site DaCS™ project. It ensures that the relevant team is fully aware of the most effective and efficient way to use DaCS™ in your chosen environment.

The course overview is as follows.

- A 1-day course taught by one ABB Process Solutions consultant specialized in technical aspects of DaCS™.
- An interactive course designed for future DaCS™ administrators or DaCS™ installation staff.
- The course covers the fundamentals of installing and configuring DaCS™ on a chosen location (usually server based). This covers both the technical and compliance implication of the DaCS™ installation. It covers all aspects of getting DaCS™ up and running, and provides information on how to maintain and operate the system in routine use.
- It is recommended that all attendees have access to an individual PC with Excel and DaCS™ installed.
- It is recommended that the group have access to the proposed live installation environment.
- The course requires prior discussion and decision of the best way of working with DaCS™ in the proposed environment (installation location and number of Interface Workbooks).

ABB / Wimmer Systems DaCS™ User and Administrator Training

Additional DaCS™ Training Courses

In addition to the above listed training courses ABB Process Solutions can offer additional Training Courses:

- ABB Spreadsheet Validation Process
- DaCS™ Programmer Course
- DaCS™ Advanced Programmer Course

What else do I need to know?

If you have any further questions with regards to the DaCS™ Training courses please contact our sales team on +44 (0)1642 372372, or e-mail wimmer.systems@gb.abb.com.

Further Details

We would be more than happy to provide detailed fixed price proposals for these courses, based on firm locations and dates.
